

Yaesu FT Dx-9000 TTBF Mode

1. Turn your rig off with the front panel switch.
2. Hold the "AFL" and "ACM" buttons in, and turn the rig on.

3. Now your FT Dx-9000 has the "TTBF mode", instead of "3000WB", under Menu No.070

4. You can go back to “3000WB mode” doing the same procedure again.
